Education

InLab academy

Certification, Php Backend Developer

2021 - 2022

I have proficiently organized various elements using PHP Laravel, encompassing the development of websites and the creation of APIs.

Proweb

Certification, Python Backend Developer

2022 - 2023

Enthusiastic Python Developer with a passion for creating innovative solutions. Proven ability to develop Telegram bots, full-stack websites, and APIs. Adept at learning new technologies and implementing them in real-world projects.

Telegram Bot :

Designed and developed a Telegram bot for seamless communication, integrating features such as real-time updates and personalized interactions. The bot significantly improved user engagement.

Full Stack Website :

Led the creation of a dynamic and responsive full-stack website from conceptualization to deployment. Implemented modern design principles, resulting in an intuitive and visually appealing user interface.

API Development :

Developed robust APIs to facilitate data communication between different modules of a complex system. The APIs were designed for scalability and efficiency, enhancing overall system performance.

Skills

Python (Programming Language) • PHP • Laravel • Django • Django REST Framework • HTML5 • Cascading Style Sheets (CSS) • PostgreSQL • MySQL • JavaScript
